Core capabilities include: Acquisition & Program Management; Financial Management; Budget Formulation and Execution; Earned Value Management; Cost Estimating; Facility Management; Project Controls; Security Engineering; and Electronic Systems Integration.

### **CACI CMS Information Systems, Inc.**

CACI supports our customers by providing Command, Control, Communications, and Computers (C4) solutions that ensure critical information gets quickly into the hands of those who need it most. We offer broad-based communications capabilities for soldier systems, mobile platforms, fixed facilities, and the enterprise, aiding users in collaboratively planning, fusing information, and making essential decisions.

Cyberspace Solutions - CACI offers solutions and services to protect and defend critical information assets, as well as offensive capabilities to support national security. We provide mission assurance to our clients anywhere, anytime, and under any circumstance. Our services include preparation, detection, prevention, reaction, and response to a full range of cyber threats.

Enterprise IT Solutions - CACI supports customers in the design, implementation, management, and upgrade of enterprise IT infrastructure. We provide tailored end-to-end services that deliver measurable

benefits, including greater efficiency and reduced costs and complexity. Offerings include data center design and management, cloud computing, virtualization, application development and hosting, mobility, and advanced service desk management.

Geospatial Solutions - Using cutting-edge methodologies, CACI enables our customers to analyze and understand a range of situations, including natural disasters, military actions, economic trends, and more. We support the full lifecycle of the collection, processing, exploitation, analysis, and dissemination of geospatial information relating to defense, intelligence, homeland security, and commercial applications.

#### **CGI FEDERAL, Inc.**

CGI Federal, Inc (CGI) is a premier systems integrator providing information technology and professional services to the U.S. Federal Government using proven CMMI Level 3 processes and ISO 9001:2000 certifications. As a result of our long-standing support to the Department of Defense, CGI was awarded the 2005 Mid-Sized Government Contractor of the Year by the Washington Technology Magazine and Northern Virginia Technology Council. This award recognizes a company's financial and operational accomplishments, along with its contributions to employees, the government contracting industry, and the U.S. Government. All our major contracts have been re-competed and retained at least once, and new customers and services have been added each year. Since 1989, we have grown by an average of thirty-three percent each year, with nearly eighty percent of historical growth attributable to repeat business from satisfied customers.

CGI Federal's Systems Integration (SI) portfolio of services is comprised of five functional service areas, each customizable to meet unique user needs. The five areas are Systems Engineering, Enterprise Integration, Operational Logistics, Business Operations Outsourcing, and Advanced Engineering and Technology. This full-spectrum approach to systems integration services provides our customers with access to targeted solutions and subject matter expertise that supports any stage of program, product, or business lifecycle. By combining expert technical knowledge and proven processes with intelligent application of emergent technologies, we help our customers meet critical goals and milestones on time and within budget to achieve key operational objectives.

#### **CRL Technologies, Inc.**

CRL Technologies is a small, professionally Hispanic American owned business providing high-quality, cost-effective services and solutions to our customers. CRL delivers a high level of performance and strives to exceed customer expectations by providing qualified and experienced employees who develop tailored solutions. CRL provides valuable resources, services and solutions to our government and commercial customers. We offer a unique blend of civil service acquisition expertise, operational experience, and business knowledge which enables the acquisition and engineering communities to deliver critical capabilities to our Department of Defense (DoD) customers. CRL currently employs dedicated and skilled professionals nationwide.

#### **Dulos Incorporated**

Dulos is a women-owned small business dedicated to supporting resource management (including cost estimating and economic analysis); strategic business planning; proposal development and support;

environmental issues related to military training and sustainable ranges; and nuclear, chemical, and biological weapons analysis.

#### **General Dynamics Information Tech., Inc.**

As a trusted systems integrator for more than 50 years, General Dynamics Information Technology provides information technology (IT), systems engineering, professional services and simulation and training to customers in the defense, federal civilian government, health, homeland security, intelligence, state and local government and commercial sectors. With approximately 21,000 professionals worldwide, the company delivers IT enterprise solutions, manages large-scale, mission-critical IT programs and provides mission support services. Headquartered in Fairfax, Va., General Dynamics Information Technology has major offices worldwide.

#### **Integrated Data Services, Inc.**

IDS specializes in the custom development and integration of Information technology solutions for enterprise-level customers throughout the DoD. From design through deployment, IDS solutions enable customers to leverage their existing IT infrastructure and connect their business strategies to provide lasting value by improving performance, reducing costs, enhancing flexibility, and minimizing risk.

#### **Orqid Consulting**

ORQID Consulting & Associates, Inc. is a privately owned company, established in 2003 by a team of experienced program and financial analysts / experts, and former military specialists.

We are a global leader in customer value by providing the best trained subject matter experts with the most up-to-date specialty skills, and superior hands-on service for end users based on innovative technology, continuous improvement, and field tested and proven experience at extremely competitive pricing.

#### **Peerless Technologies Corporation**

Peerless is a nationally recognized, award-winning, and reputable business serving federal government clients at multiple locations nationwide. Peerless provides quality services backed by our ISO 9001:2008 certified Quality Management System and Software Engineering Institute (SEI) Capability Maturity Model Integrated (CMMI) Level 3 assessed software and systems engineering processes. Our DOD, DHS, DOE, and EPA customers take advantage of our services offered from our core competencies of Systems Engineering; Program and Financial Management; Information Technology; Cyber Defense; Medical and Human Performance; Intelligence, Surveillance, and Reconnaissance; Training and Training Systems; and Research and Development, Test and Evaluation.

#### **Southeastern Computer Consultants, Inc.**

SCCI provides Systems Engineering, Configuration Management, Information Assurance, Information Management Systems, Software Engineering, Logistics, and Training Services in support of complex, software intensive military systems.

#### **TASC, Inc.**

TASC is renowned for program management capability, both on specific projects and on large indefinite delivery, indefinite quantity (IDIQ)–type contract vehicles. We currently manage IDIQ programs for the Marine Corps and the Air Force and we have extensive experience managing large teams that we can apply. We routinely execute contracts with more than 100 personnel and more than 10 teammates; some of our contracts employ more than 500 staff. Headquarters is in Chantilly, Virginia, with offices nationwide.

#### **Technomics, Inc.**

Technomics is a growing, employee-owned consulting firm that specializes in the exciting and challenging field of weapon system cost analysis. Our talented analysts pride themselves in shaping future Department of Defense budgets for the nation’s most critical and technologically advanced weapon system programs. Our clients are senior Government decision makers who trust our answers and respect our candor. Our analysts and clients understand that unrealistic cost estimates lead to cost growth, schedule slippage and, in the worst case, program cancellation. Technomics is committed to providing unbiased analysis and advice that mitigates the risk of these unacceptable outcomes.

#### **TTL Associates, Inc.**

Established in 1927 as Toledo Testing Laboratory, TTL Associates, Inc. is a full-service environmental, testing, and geotechnical engineering firm, serving private and public entities throughout the United States as well as providing construction management services for the federal government. Established under the leadership of Thomas R. Uhler, P.E., President, P.E., TTL Associates is a Verified Service Disabled Veteran Owned Small Business by the U.S. Department of Veterans Affairs. TTL Associates has a staff of 110, including many U.S. Veterans. The firm has earned multiple national awards and serves clients from their headquarters in Toledo and offices throughout Ohio, Illinois, Michigan and Washington D.C.

#### **VSE Corporation**

VSE is a broadly diversified company focused on creating, sustaining, and improving the systems, equipment, and processes of government through core competencies in legacy systems sustainment, obsolescence management, prototyping, reverse engineering, technology insertion, supply chain management, foreign military sales, management consulting, and process improvement. Our expanded mission now includes providing innovative services and technologies to help our customers succeed in the engineering, energy, environment, information technology, and defense services markets.

#### **Waltonen Engineering, Inc.**

Founded in 1957, Waltonen is a leader in engineering and design services. Waltonen is an ISO 9001 certified company with extensive experience in product design, manufacturing, quality, engineering, test systems, and program management with various government and commercial customers. Waltonen has firsthand experience with different and non-traditional approaches, allowing us to maintain our market leadership with a multi-industry customer base. We support the defense, automotive, aerospace, transportation, heavy equipment, medical device, and consumer goods markets. Our designers and engineers are cross-trained in house on multiple CAD software packages so that they can easily work on different programs, and our IT specialists are experienced in all forms of hardware and software.

**Whitney, Bradley and Brown, Inc.**

For over 30 years, WBB, formerly known as Whitney Bradley & Brown, Inc. professionals have helped hundreds of clients successfully manage their most complex mission-critical business problems. By working closely with our clients, we're able to deliver sustainable, measurable results. WBB has become a trusted partner in the areas of Transformative Change, Enterprise Planning and Execution, and Mission Performance Optimization. Our focus is on providing the information our clients need to make an informed decision and take appropriate action.
